Notice-only change to
MSOP 011-14846-00004

Dear Mr. Shaw:

Marathon Ashland Pipeline, LLC was issued a permit on February 21, 2002 for a stationary crude oil and asphalt products distribution source. A letter notifying the Office of Air Quality of the addition of four (4) frac tanks to the facility was received on June 18, 2002. The four (4) frac tanks have been installed for temporary storage and sampling of crude oil from May 17, 2002 to July 31, 2002. According to 326 IAC 2-6.1-6(d)(10), a notice-only change can be used for "modifications that have the potential to emit greater than or equal to one (1) ton per year but less than ten (10) tons per year of a single hazardous air pollutant (HAP) as defined under Section 112(b) of the CAA or greater than or equal to two and one-half (2.5) tons per year but less than twenty-five (25) tons per year of any combination of HAPs". The modification meets this requirement, therefore, pursuant to the provisions of 326 IAC 2-6.1-6 a notice-only change is hereby approved.

No changes have been made to permit pages.

All conditions of the permit shall remain unchanged and in effect. Please attach a copy of this letter and the following revised permit cover page to the front of the original permit.
